

Graduate Student Council Administrative Policy Decision 03-06

Date: 10/10/05

Issue: The recently amended bylaws reduces the overall departmental representation by approximately one-third. Since many departments recently conducted elections to fill the positions, immediate representation reductions would not be well received.

Resolution: The Graduate Student Council approves grandfathering the current membership levels until the time of the next departmental elections (April 2006), at which time the new representation approximations will take effect.
